Mission Statement

***The well-being and safety of children and youth
is our primary focus.
Together with our community we strive to protect
children and youth and strengthen families.***

Our Ten Year Vision

All children, youth and families are valued.

Together, with the entire community, we share the responsibility of nurturing, protecting, educating and guiding all children, youth and their families.

Families possess the wisdom, abilities and resources to build a successful family plan. We support their journey toward self-determination, safety and care.

Children and youth have a voice and are involved in decision-making; we ensure they have the necessary resources to be well supported for success.

Mutual trust and understanding is built through listening and communicating with respect and compassion.

Hope replaces fear and families are open to receive help early.
