**AGENDA ITEM NO. 8 – 2024/25 – 2025/26 – 2026/27 HOUSING NEW CONSTRUCTION PROGRAM ALLOTMENT, FUNDING & AMOUNT OF HOMES TO CONSTRUCT (HOUSING FINANCIAL ASSISTANT)**

The Housing Financial Assistant noted in her Briefing Note that in prior years the allotment amount was \$110,000.00, \$150,000.00, and \$200,000.00 per home construction for 2 applicants each year. As of April 5, 2022 the allotment of \$300,000.00 was approved for 6 individuals to construct each fiscal for the 2021/22, 2022/23, and 2023/24 fiscal years. With Covid-19 and an influx in cost for home construction, individuals are having a difficult time constructing their homes with \$300,000.00 to be a comfortable size for their families, as the cost of materials has significantly risen. In 2020/21 and 2021/22 Housing received additional funding from Indigenous Services Canada Enhancement to go towards home construction, resulting in Housing having enough funds to cover all home construction expenditures. However, this additional funding is not always guaranteed and is based on availability and Indigenous Services Canada contacting the Housing Department.

- The current housing new construction list is at 115 applicants.
- With the 2021-22-23 fiscal year nearing completion for the amount of homes to build within those years being set at 6 per year and the allotment amount being \$300,000.00 per home, Housing is seeking guidance from Chief & Council for the 2024/25, 2025/26 and 2026/27 fiscal years to determine how many homes they would like constructed and the amount for the allotment.
- Funding for the home construction for the most recent fiscal years has come from the following Profit Centres:
  - 300100           ISC Block Funding – Housing New   \$600,000.00
  - 300501           Community Trust                         \$250,000.00
  - 300502           Toronto Purchase                         \$400,000.00

The current budget for home construction totals \$1,250,000.00, if it is approved for the Housing Department to continue receiving funds from the aforementioned profit centres.

- The total cost for 6 homes at \$300,000.00 is \$1,800,000.00. Therefore, as per the former motion it was undetermined where the remaining \$600,000.00 would come from to fund the last two home constructions, and that the former Council would determine this. (***Previous Motion attached***)
- Also to note, there are only two main contractors that have been constructing the homes, which is putting a lot of demand on them for timelines.
- The current quotes we have received from the previous fiscal average near \$350,000.00 with some being under and others exceeding this value.

**DIRECTION NO. 2**

That the Mississaugas of the Credit First Nation (MCFN) Financial Planning & Fiscal Oversight Council directs Councillor Rodger LaForme (Pillar 6 Lead) to meet with Housing to prepare a chart of the 2024/25; 2025/26; 2026/27 Housing New Construction Program Allotment. For example, are the numbers in the Briefing Note for one year or three years.

Further, Housing Department send a Briefing Note to Ogimaa-Kwe and Council requesting to apply to the MNCFN Community Trust for dollars.

And further, explain what the “Toronto Purchase Exchange” is.

This item will come back to the next Intergovernmental Relations Council Meeting on Tuesday, March 12, 2024 with the above changes.

Executive Director of Operations (Kerri King) sent an email regarding posthumous applications with regard to the Community Wellness Policy. She informed that in 2011 posthumous applications were not a part of the Toronto Purchase Settlement.

Regarding this year's Community Wellness Distribution, this year says there will be two payouts. Kim stated that in the case of posthumous applications, people would have to apply on behalf of the estate. That is, if a Member applies for the first distribution, and then passes away before the second distribution, the Estate would have to apply. He can do an amendment to the Trust, but a BCR would also be needed. Kim also stated that MCFN does not control its own Membership, ISC does.

**AGENDA ITEM NO. 9 – DOCA WATER MATTER (A/SED DIRECTOR)**

A/SED Director noted in her Briefing Note that this briefing note is being provided as follow-up to the September 12, 2023, Intergovernmental Relations Council.

A letter (included in back-up) dated September 8, 2023 was received from Peter Hill, Environment Public Health Officer regarding two bacteriological water samples that were taken on August 29, 2023 and September 6, 2023. Both samples showed results for “overgrown” for both total coliforms and E. Coli. Included in the letter were recommendations.

The A/Director of Sustainable Economic Development received Motion No. 20 from the September 12, 2023, Intergovernmental Relations Council (included in back-up). The A/DSED was finally able to find a company that would come out to complete. After the February 14, 2024, inspection, the A/DSED received the quote from Hunter Plumbing, Heating, Excavating Inc. (included in back-up) as follows;

1. Material & Labour for Well Remediation - \$11,690.00 + HST
2. Material & Labour to supply & install 1 new 4,000 gallon cistern & pressure system - \$17,980.00 + HST
3. Not included in the quote was the cost to decommission the existing well - \$3,765.00 + HST

At the September 12, 2023, Intergovernmental Relations Council meeting, direction (included in back-up) was given to the Executive Director of Operations to reach out the the A/SED Director regarding how much it would cost to have the waterline installed from No. 6 Highway to Hagersville.

The A/DSED reached out to First Nations Engineering Services Limited (FNESL) to have a conversation on obtaining a class D/E estimate to extend the current waterline from the plaza area to the DOCA property in Hagersville. The A/DSED received a rough estimate of costs (not including engineering costs or drawings) to run the waterline from the Commercial Plaza, “road to nowhere” through the MCFN property to the DOCA property in the amount of \$550,000.00. The breakdown of this cost is as follows;

“300m - 200mm dia. PVC DR18 watermain open cut – 300m x \$1,000/m = \$300,000.00  
Connection To Existing Watermain - \$15,000.00

2 Hydrant assemblies - 2 x \$17,000.00 = \$34,000.00  
200mm Valve – 2 x \$13,000 = \$26,000.00  
Site Prep & Grading - \$40,000.00  
Final Site Works - \$25,000.00  
Rock Excavation - \$75,000.00  
Bonding/Insurance - \$35,000.00

Approx. \$550,000 is my **rough** estimate.”

The A/DSED requires input from Chief and Council on how to proceed. It should be noted that there is money available within the SEDD DOCA property budget.

Councillor EF questioned if the waterline could be completed from NCVGB to LaFarge. If so, we would need to meet with Haldimand County. Ogimaa-Kwe added that there is an informal meeting with Haldimand on Friday, and she will bring this item to the Agenda, as we need to show some urgency on this.

Councillor VKJ informed that we should ask ISC for any slippage dollars.

Ogimaa-Kwe noted that this project will not go to the Public Works Department.

*To support hiring of Environmental Public Health Officers (EPHOs) and other Environmental Public Health staff, ISC has worked with the national professional and accreditation body for Environmental Public Health Officers, the Canadian Institute of Public Health Institute, to develop a recruitment and retention strategy, with a focus on Indigenous Peoples and women.*

*As a part of this initiative, ISC is looking to showcase the work of EPHOs within communities through the creation of a “Day in the Life of an EPHO”/Career video. Two such videos have already been film in 2 other Communities and can be seen here : [https://youtu.be/eS1jQlq\\_Hsc](https://youtu.be/eS1jQlq_Hsc) and <https://youtu.be/APaIT3nWd8M>.*

*We would love to showcase the work of EPHOs within your community in an effort to bring awareness of the day-to-day work of an EPHO such as water testing, inspection of band buildings/public spaces and/or working closely with band departments/Chief and Council to resolve issues. This could also help to provide viewers with an on the ground perspective and realities of environmental public health issues that First Nation communities face in Canada.*

*We are seeking your consent to film this video, showcasing me working in your community as your EPHO. Please note, this will involve an on-site group that will include a 2-3 person film crew and 2-3 ISC employees with film and media equipment. We hope to record these videos in April and will work with you to determine a time/date that works best for you and your community. We will also ensure that spaces and images being filmed are approved by you and your community. It is our intention to only include public spaces or outdoor areas and will not include any private dwelling in the video. Kindly let us know if this is possible and, if we have your consent to film within your community. If you have any additional questions, please feel free to reach out to myself or to Ian Grimwood at [Ian.Grimwood@sac-isc.gc.ca](mailto:Ian.Grimwood@sac-isc.gc.ca) ( cc'd here).*

As Contact Brant has significant resources available, we reached out and sought clarity on programs and services available to our community, roles and expectations of our community, and clarification as to representation at the SLT (is this a technical table or is there leadership involved). The EDO met with their ED to obtain clarification.

Overall, it's a collaborative board that discusses and strategizes opportunities for those in the catchment
